

“Working in partnership with our clients to protect and help them grow”

We are delighted to introduce the Client Service team of UK & Global Insurance Brokers Ltd.

UK & Global's Client Service team is highly experienced in providing Insurance Broking and Risk Management services to all areas of industry and commerce in the UK and Internationally.

The role and responsibility of Insurance Brokers has changed considerably in recent years in response to client needs. Business Leaders increasingly value performance in service delivery and a consultative approach to addressing their business risks, in particular

- receiving a prompt, efficient and helpful response in the day to day servicing of their account in line with their expectations
- having confidence that their Insurance Broker fully understands their business and its objectives
- receiving practical advice and support on risk management issues including the delivery of innovative solutions
- building a closer relationship with selected insurers with the help and support of the Insurance Broker
- having a regular and meaningful dialogue with a highly skilled Client Service and Risk Advisory Team

UK and Global's ongoing commitment to our Clients is to fully meet these expectations and achieve an unrivalled level of performance in service delivery.

Risk Management

Independent Risk Audits – 'RIA' & 'ORR'

It is important for us to learn about a Client's approach to risk management, and to be able to illustrate it to Insurers, at both the Corporate / board room 'top down' and Operational 'shop floor' levels in addition to providing benchmarking to the Client against best practice standards.

We have developed the following Risk Audits to assist in this key area:

Risk Identification Analysis – 'RIA'

Risk Audits on Boardroom 'top down' Issues
Corporate Governance
Asset Management
Compliance
People Risks
Change Management
Environmental policy
Technology
Products / Services
Financial
General Management

Operational Risk Review – 'ORR'

Risk Audits on Operational 'Shop Floor' practices
Health & Safety
Employee Safety
Business Continuity
Brand & Reputational
Physical Security
IT & Computer Dependency
Environmental
Product Safety
Ergonomics
Fleet Management
Property Protection against fire
